3400LED Series POLYURETHANE "NO AIR" LED BLAST LIGHT

Features and Benefits:

- The 3400LEDS Light Single Outlet System comes standard with the light, power pack, 100' 16/2 Western Technology Extreme Cable and "low-boy" stanchion mount
- Polyurethane construction makes this light extremely durable, long lasting and lightweight, suitable for abrasive blasting, inspection and water washing
- Power options designed to run on 12V DC, 120V AC or 8-28V DC (Light draw less than 5 Amps)
- Cabled with Western Technology's abrasive/cut resistant Extreme Cable
- LED eliminates cost of bulbs and associated bulb replacement downtime. Lens is easily replaced
- Directional, bright, white light can improve productivity up to 25%
- Multi-outlet power pack and other cable length options available
