Model 7460-7465 NS Intrinsically Safe LED Rechargeable Dual-Light Angle Flashlight/Floodlight

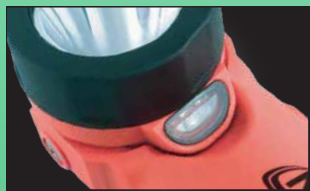

July 2024

RECHARGEABLE LED DUAL-LIGHT ANGLE LIGHT

This intrinsically safe LED angle light has dual-light technology with three light modes. The flashlight head rotates 90°, while the 45° downward floodlight lights up an 8-foot walking area. Large buttons make it easy to control the separate LEDs while wearing heavy work gloves. It also features a grab-n-go rechargeable base and holds tight to gear with its heavy-duty clip and V-ring.

Head rotates 90°—directing beam where it's needed most

45° downward floodlight lights an 8 foot walking area

Large switches control separate LEDs, easy to use with gloves

Heavy-duty, clip and V-ring securely holds tight to gear in any situation

Head Rotates 90°
